

# Spectra Plus

## Little indirect, big benefits

Spectra Plus has been specifically designed as a compact, lightweight and portable indirect with big benefits for professionals on the move. It can be tucked away in its neat carrying case or hung around your neck when not in use.

## LED long lasting illumination...

and - unbelievably - no more bulbs. That's right... No more bulbs! Just a long lasting, white homogeneous light patch.

## Keeler Sport Frame

Spectra Plus comes on the new Keeler Sport Frame. This new wrap around frame is not only attractive but provides maximum comfort and balance and comes in a range of metallic colours (see below).

## Flip up optics

The whole optical box and light pod can be flipped up allowing direct eye contact when talking to patients or for writing notes.

## Carrying case

A little case for a little indirect.

P D Range: 48 - 76mm

## Variable PD

No restrictions. Just adjust your PD when you need it. It has a wide range between 48 to 76mm.

## Wear with your own prescription

You can wear your Spectra Plus over your frame or have your own lens prescription put in.

## Great Lightweight Lithium ion Battery

The small compact Lithium ion battery simply clips on to your belt and can be stored in its charger when not in use. It provides up to 4 hours continuous use on time.
